## City Council Proclamation

**WHEREAS**, air quality can threaten our environment, economy, and the health of the residents of the City of Kyle; and

**WHEREAS**, in 2022, the Austin-Round Rock-Georgetown Metropolitan Statistical Area (MSA) experienced its worst ozone season in over a decade, with more than thirty days when ozone levels were unhealthy for sensitive groups and two days unhealthy for all; and

**WHEREAS**, Air pollution levels in Central Texas were considered “moderate” or worse on forty-seven percent of days in 2022, according to the National Air Quality Index; and

**WHEREAS**, children, older adults, people with lung disease and people with heart disease - which makes up about half of all residents in Central Texas - are particularly affected by poor air quality; and

**WHEREAS**, ground-level ozone (O<sub>3</sub>) levels in the MSA remain close to exceeding the O<sub>3</sub> National Ambient Air Quality Standard (NAAQS) and revisions to the annual fine particulate matter (PM<sub>2.5</sub>) NAAQS currently being considered by the U. S. Environmental Protection Agency (EPA) could place the MSA at greater risk of a nonattainment designation; and

**WHEREAS**, remaining in compliance with the NAAQS is important not only for public health, but also for the region’s economy and ability to conduct transportation planning; and

**WHEREAS**, the City of Kyle supports the efforts of the Central Texas Clean Air Coalition and the U.S. Environmental Protection Agency to promote air quality; and

**WHEREAS**, the EPA has designated May 1 - 5, 2023, as National Air Quality Awareness Week.

**NOW THEREFORE** The City of Kyle does hereby proclaim May 1 - 5, 2023 as

### “Air Quality Awareness Week”

The City of Kyle encourages our residents and employees to take action to Be Air Aware and educate themselves about local air quality by visiting CAPCOG’s Air Central Texas website at [AirCentralTexas.org](http://AirCentralTexas.org) and promoting air quality and air quality awareness within our community.
